

KOS, Kos Marina

The Marina

Kos Marina is situated in the Gulf of Kos, facing the Turkish coast. It is 25 km from Kos International Airport. The taxi ride from the airport to the marina takes about half an hour.

Meeting Point/Office

On your arrival please go to Dream/Vernicos Yachts office which is located inside the marina on the first floor of the marina building over the coffee shop.

Office Tel:+30 2242 11301

Moorings

Our berths are on pier F. When returning, go stern to and do not use your anchor, there are mooring lines. At the entrance of the port you have to call in channel 77 (Marina Office) and they send a pilot boat to assist you.

Provisioning

Inside the Marina there is a MiniMarket with a variety of products.

Facilities

Fuel Station is located at the fuel dock next to the slipway, which is located next to the marina in the South. In case of south winds refueling is taking place at the entrance of the marina by a fuel wagon. **Please refuel your yacht before you go to your berth.** Water, electrical supply, telephone, cable tv and battery charger are available on the pier free of charge for the first and last day as are mooring fees. Showers and toilets are also available. There is a restaurant and a cafeteria inside the Marina and a number of taverns, restaurants, cafes and bars within walking distance of the harbor.

The Weather

From May to October, the prevailing wind in the area of the Dodecanese Islands blows from the N, NW at Force 4-6B.

Hazards

The shoals extending from Akrotiri Ammoglossa should be given a good offing. There are strong gusts into the bay with the meltemi.

Base Manager

Mr. Michalis Kanalis (Base Manager).
