

DYC CABIN CHARTER RULES OF BEHAVIOUR FOR CLIENTS

I confirm I have understood and will observe the below rules of behaviour during my cabin cruise with DYC:

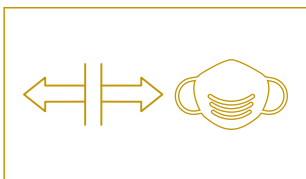

Masks must be worn at all times except in the following situations - while in your cabin, when eating or drinking and while in the sea. Guests must bring their own masks - minimum 4 per day.

Social distancing must be observed at all times. Cabin charter boats have 4 main areas - front lounge, cockpit, interior and fly bridge which make social distancing possible. Captain and the crew will assist and advise the guests how to split in the different areas and achieve social distancing.

Hands must be regularly washed and disinfected. Personal hygiene must be maintained at the highest level.

During excursions, social distancing must be maintained and masks must be worn. Instructions of the official tour guide must be followed. Items that may be unsafe or potentially risky for COVID19 infection may not be brought to the boat.

Shoes must be taken off and disinfected with disinfectant spray on every return to the boat. Shoes must be placed in individual plastic bags after disinfection.

All persons on board are advised to take temperature checks daily.

A person who develops COVID19 symptoms must report them immediately to the captain.

I understand and accept that the captain has the responsibility to ensure that all rules of behaviour on board are respected and has the authority to offboard any person who does not respect them.
