“Our first time to the Bahamas and the experience was excellent. The Captain's local knowledge was outstanding and added to the whole week which made it so special. We snorkeled, swam with Turtles and Sharks. I have never seen waters so blue.

Our chef was absolutely magnificent and the food was exceptional and he catered to all our needs. I can strongly recommend this charter for a fun filled, gastronomical, unique trip.”

“Once-in-a-lifetime experience. From sunbathing on deserted beaches, to snorkeling over sunken planes, to swimming with sharks, to fine dining at sunset, this was a holiday to remember forever. The captain and host were simply amazing. The food was exquisite, and my youngest's allergies carefully catered for. My boys even got to help sail the boat! Perfect in every way. We all wish we were still there, sailing the Exumas!”
